Portal Modules: Events

Events Module

This module displays a list of upcoming events, including time and location. Individual events can be set to automatically expire from the list after a particular date. Events includes an edit page, which allows authorized users to edit the Events data stored in the SQL database.

Example

Event Details	
Title:	<input type="text" value="Recipe Training"/>
Description:	<div>Recipe Training for this store will take place on 4/24/2005 at 10:00 AM and 2:00 PM. Please schedule accordingly.</div>
