Creating a Recipe: Header Titles

[Previous](#) | [Next](#)

Header Titles

From the Details menu, you can adjust the Headers of the recipe.

In the example below, we have changed the Header 1 title to Prep Time. The Header 2 title has been changed to Yield. You can do this by simple typing in the fields. The fields to the right of each of the titles can then be edited to add the specific prep time and yield for this recipe.

Pan Roasted Chicken		
Prep Time		
Yield		
Ingredients	Quantity	
	1x	2x
