

Welcome Interface

Welcome Interface – Background Image

Fills the background area of the Home Interface. The greeting message is placed over this background.

View Size: 1024px × 708px
 Min Recommended Size: 10px × 10px
 Scaling: None (Tiled)
 Enum Name: kGOPSUIImageTypeWelcome
 Enum Value: 84

Welcome Interface

Welcome Message – Background Image

Fills the background area of the greeting message on the Welcome Interface.

View Size:	1024px × 100px
Min Recommended Size:	10px × 10px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeWelcomeMessage
Enum Value:	85

Home Bar – Background Image

Fills the background of the home bar running along the bottom of the page.

View Size:	1024px × 40px
Min Recommended Size:	1px × 40px
Scaling:	Scaled to Fill
Enum Name:	kGOPSUIImageTypeHomeBar
Enum Value:	3

Right Home Bar Button – Background Image

Fills the background of a button located on the right side of the Home Bar. This image is used for all states. The button is not rendered if it is disabled.

View Size:	50px(+) × 40px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 10px caps
Enum Name:	kGOPSUIImageTypeHomeBarRightButton
Enum Value:	24

Left Home Bar Button – Background Image

Fills the background of a button located on the left side of the Home Bar. This image is used for all states. The button is not rendered if it is disabled.

View Size:	50px(+) × 40px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 10px caps
Enum Name:	kGOPSUIImageTypeHomeBarLeftButton
Enum Value:	25

Welcome Interface

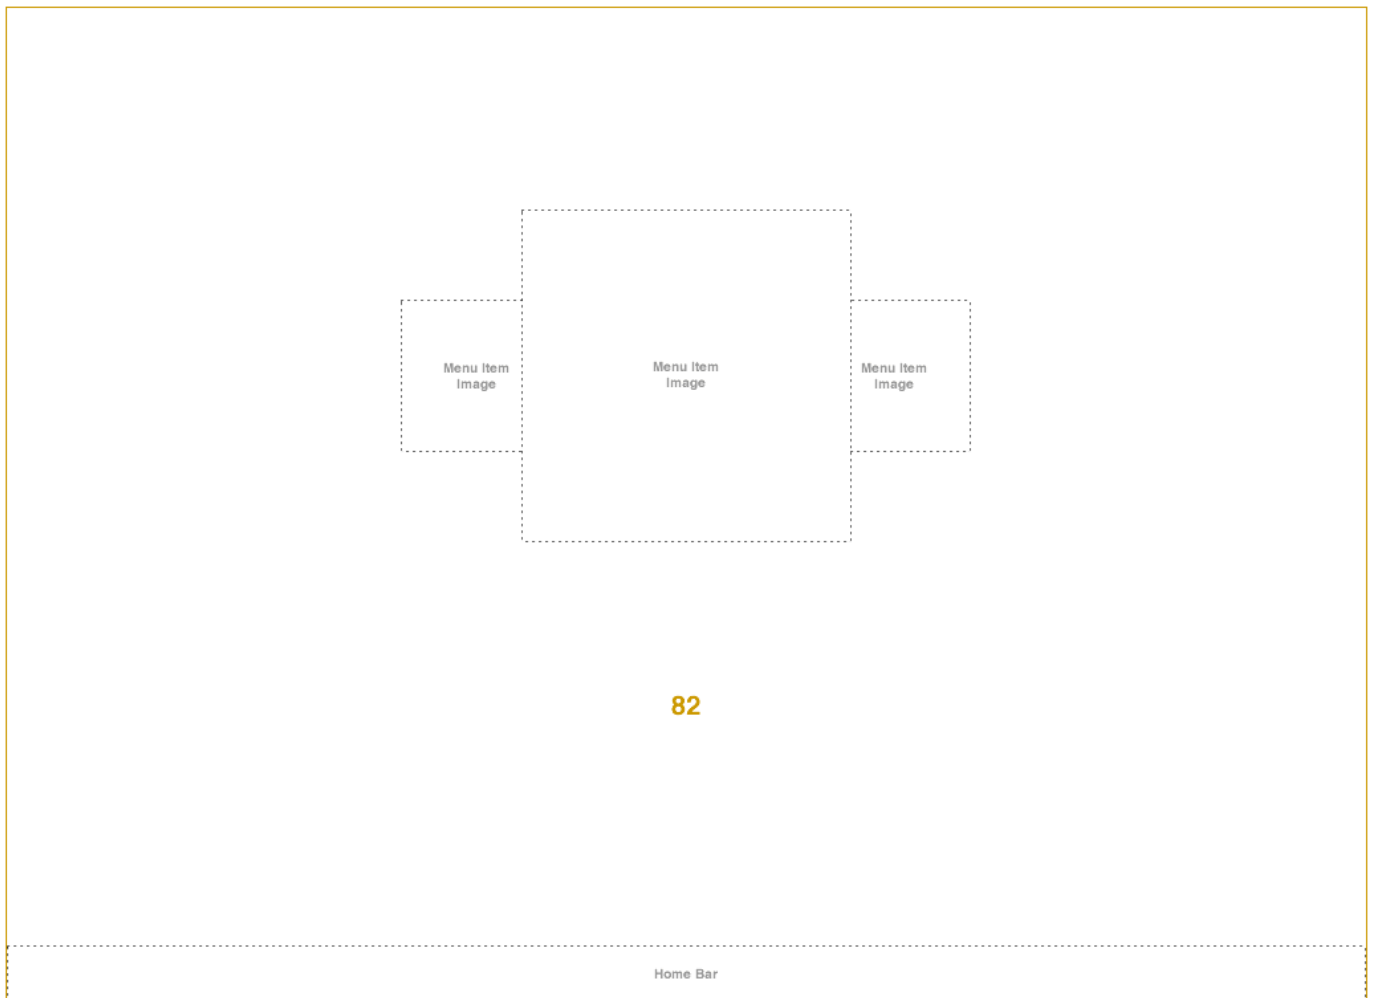

Home Button – Icon

Image for the home button located on the far right side of the Home Bar. This image is used for all states. The button is only enabled in the Order Interface and is made transparent when disabled.

View Size:	60px × 40px
Min Recommended Size:	40px × 40px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeHomeButton
Enum Value:	26

Home Interface

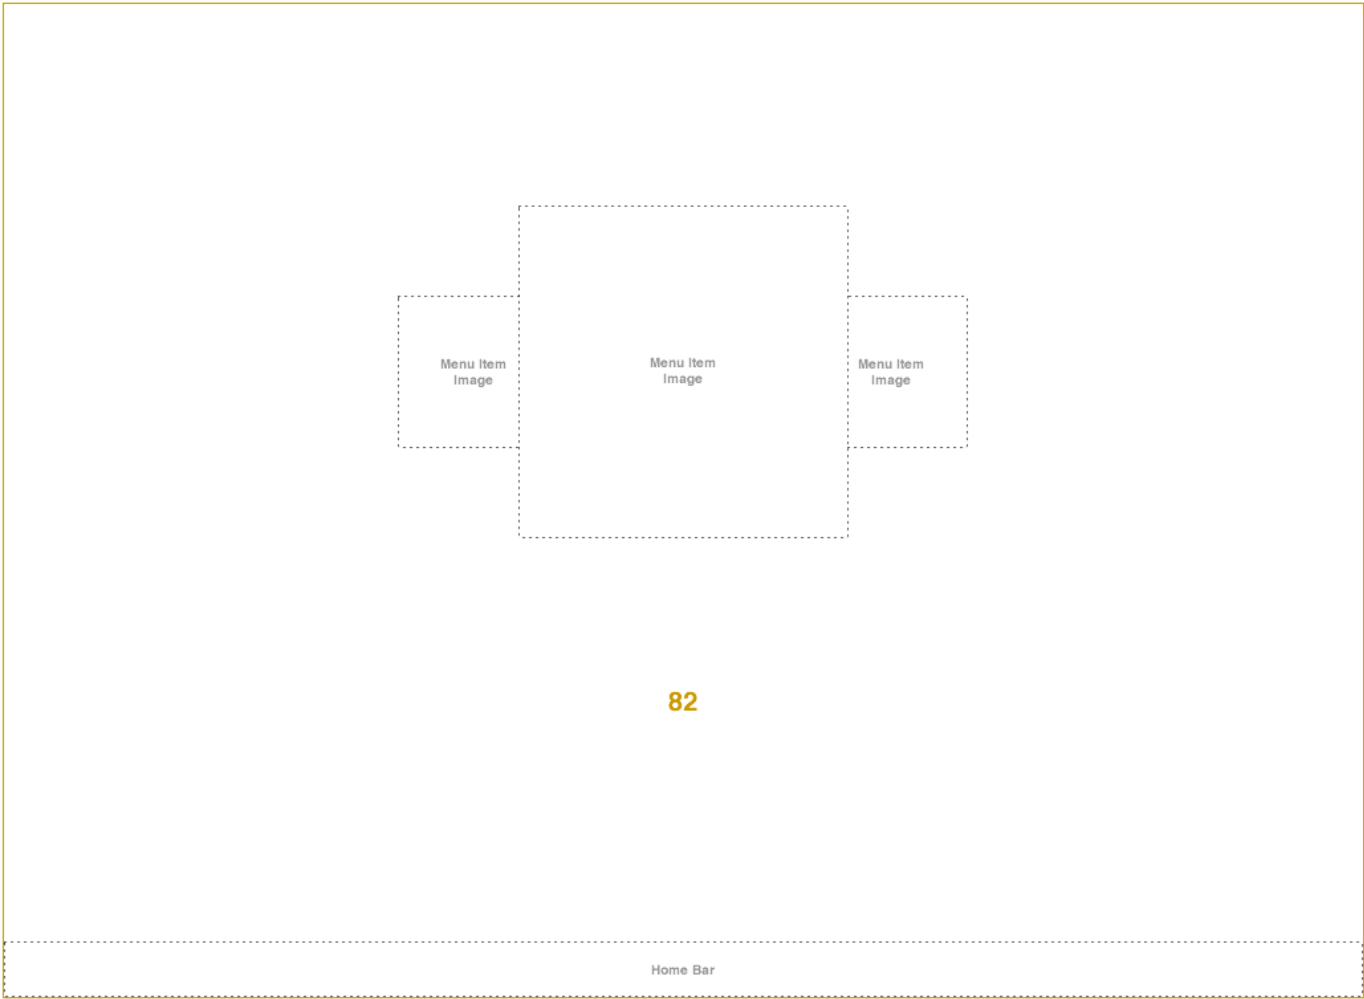

Home Interface – Background Image

Fills the background area of the Home Interface. The carousel navigation for featured items is placed over this background.

View Size:	1024px × 708px
Min Recommended Size:	10px × 10px
Scaling:	None (Tiled)
Enum Name:	kGOPSUIImageTypeHome
Enum Value:	82

Menu Interface

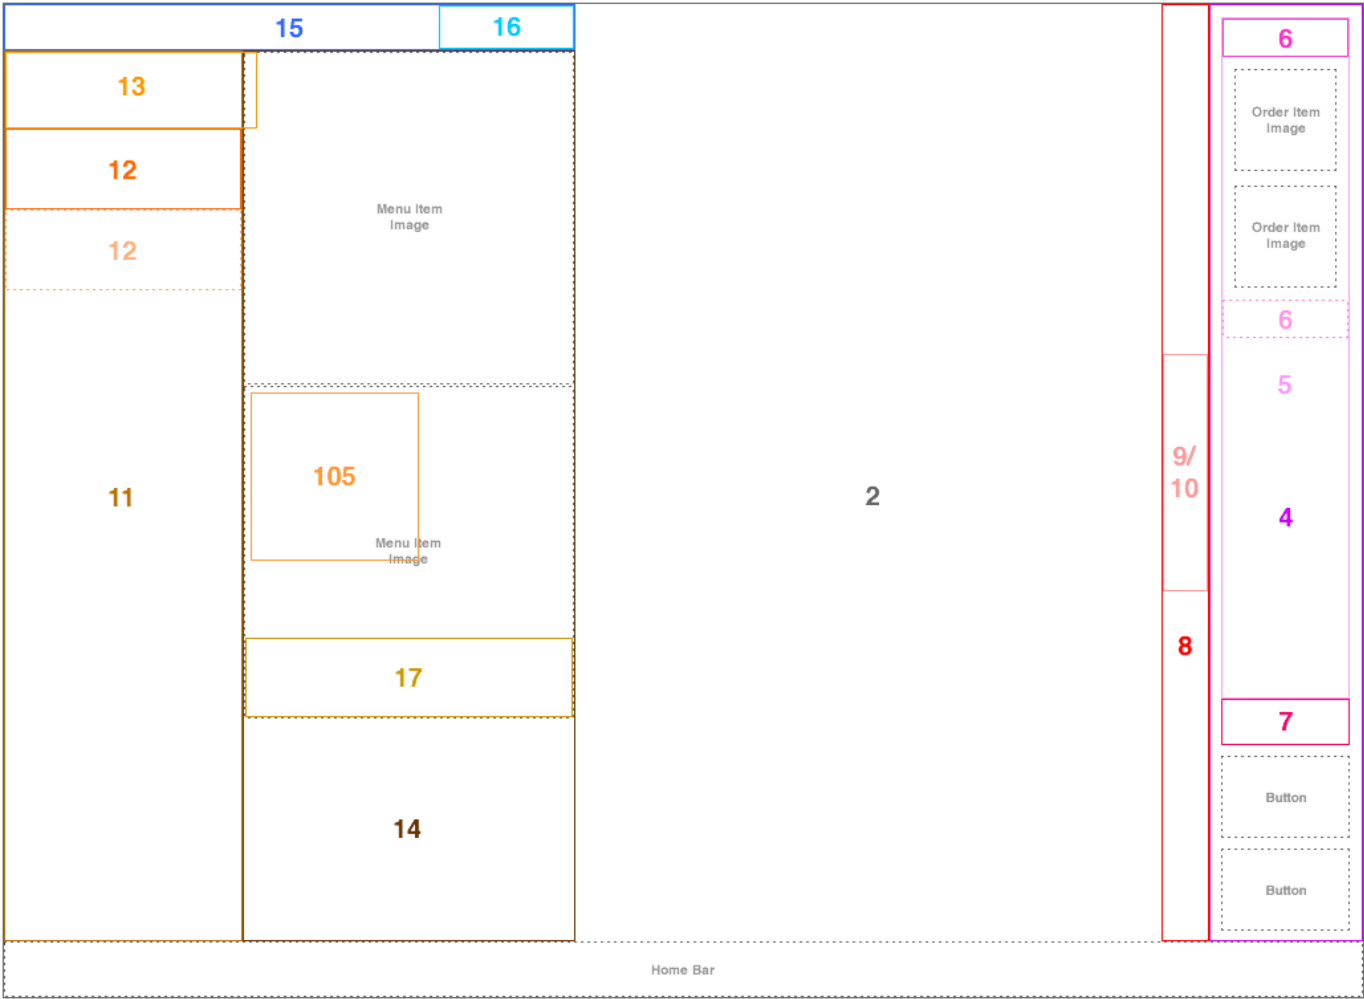

Menu Interface – Background Image

Fills the background area of the Menu Interface. The carousel navigation for menus is placed over this background.

View Size:	1024px × 708px
Min Recommended Size:	10px × 10px
Scaling:	None (Tiled)
Enum Name:	kGOPSUIImageTypeMenu
Enum Value:	83

Ordering Interface

Ordering Interface – Background Image

Used to fill the background area of the Ordering Interface. Although most of the background image is covered by the Order Panel and Menu Browser, it is visible during the interface’s loading animation sequence.

- View Size: 1024px × 708px
- Min Recommended Size: 10px × 10px
- Scaling: None (Tiled)
- Enum Name: kGOPSUIImageTypeMainArea
- Enum Value: 2

Ordering Interface

Order List Area – Background Image

Fills the background of the Order Panel.

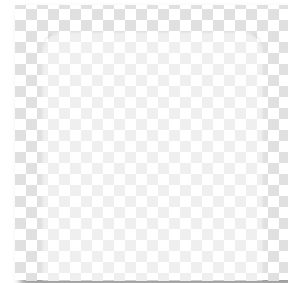

View Size: 320px × 708px
Min Recommended Size: 10px × 10px
Scaling: None (Tiled)
Enum Name: kGOPSUIImageTypeOrder
Enum Value: 4

Order List Body – Background Image

Fills the background of the list in the Order Panel.

View Size: 320px × 708px
Min Recommended Size: 26px × 26px
Scaling: Stretched with 25px caps
Enum Name: kGOPSUIImageTypeOrderListArea
Enum Value: 5

Order Section Header – Background Image

Fills the background of each header in the order item list displayed in the Order Panel. Order Items in the list will slide underneath this image during scrolling.

View Size: 285px × 30px
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeOrderListArea
Enum Value: 6

Order List Footer – Background Image

Fills the background of the Order Panel's footer, containing the order subtotal, tax, and total.

View Size: 285px × 74px
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeOrderFooter
Enum Value: 7

Ordering Interface

Order Panel Handle – Background Image

Fills the background of the Order Panel's handle.

View Size:	35px × 708px
Min Recommended Size:	10px × 10px
Scaling:	None (Tiled)
Enum Name:	kGOPSUIImageTypeOrderBar
Enum Value:	8

Order Panel Opened – Button

This image is centered vertically and horizontally in the Order Panel's handle. The image should indicate (e.g. with arrows) that touching it will minimize the Order Panel.

View Size:	35px × 708px
Min Recommended Size:	10px × 10px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeOrderBarHandleOpen
Enum Value:	9

Order Panel Opened – Button

This image is centered vertically and horizontally in the Order Panel's handle. The image should indicate (e.g. with arrows) that touching it will maximize the Order Panel.

View Size:	35px × 708px
Min Recommended Size:	10px × 10px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeOrderBarHandleClosed
Enum Value:	10

Menu Category List – Background Image

Fills the background of the Menu Category list in the Menu Browser.

View Size:	180px × 673px
Min Recommended Size:	10px × 10px
Scaling:	None (Tiled)
Enum Name:	kGOPSUIImageTypeMenuCategoryList
Enum Value:	11

Ordering Interface

Menu Category – Background Image

The background of the cell containing a Menu Category name in the Menu Browser. If the image provided is smaller than the cell size, it is aligned to the bottom of the cell.

View Size:	180px × 60px
Min Recommended Size:	180px × 1px
Scaling:	None
Alignment:	Bottom
Enum Name:	kGOPSUIImageTypeMenuCategory
Enum Value:	12

Selected Menu Category – Background Image

Fills the background of a Menu Category in the Menu Browser.

View Size:	180px × 60px
Min Recommended Size:	180px × 50px
Scaling:	None
Alignment:	Right
Enum Name:	kGOPSUIImageTypeMenuCategory
Enum Value:	13

Menu Item List – Background Image

Fills the background of the Menu Item list in the Menu Browser. The view width is determined by its margin settings.

View Size:	250px(+) × 673px
Min Recommended Size:	10px × 10px
Scaling:	None (Tiled)
Enum Name:	kGOPSUIImageTypeMenuBrowser
Enum Value:	14

Menu Browser Header – Background Image

Fills the background of the Menu Browser header. The view width is determined by its margin settings for the Menu Item List.

View Size:	430px(+) × 35px
Min Recommended Size:	1px × 35px
Scaling:	Scaled to Fill
Enum Name:	kGOPSUIImageTypeMenuBrowserHeader
Enum Value:	15

Ordering Interface

Menu Button – Background Image

Fills the background of the Menu button in the Menu Browser header.

View Size:	105px × 35px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 10px caps
Enum Name:	kGOPSUIImageTypeMenuButton
Enum Value:	16

Menu Item Label – Background Image

Fills the background of a Menu Item label in the Menu Browser.
The view width is determined by its margin settings.

View Size:	250px(+) × 60px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeMenuItemLabel
Enum Value:	17

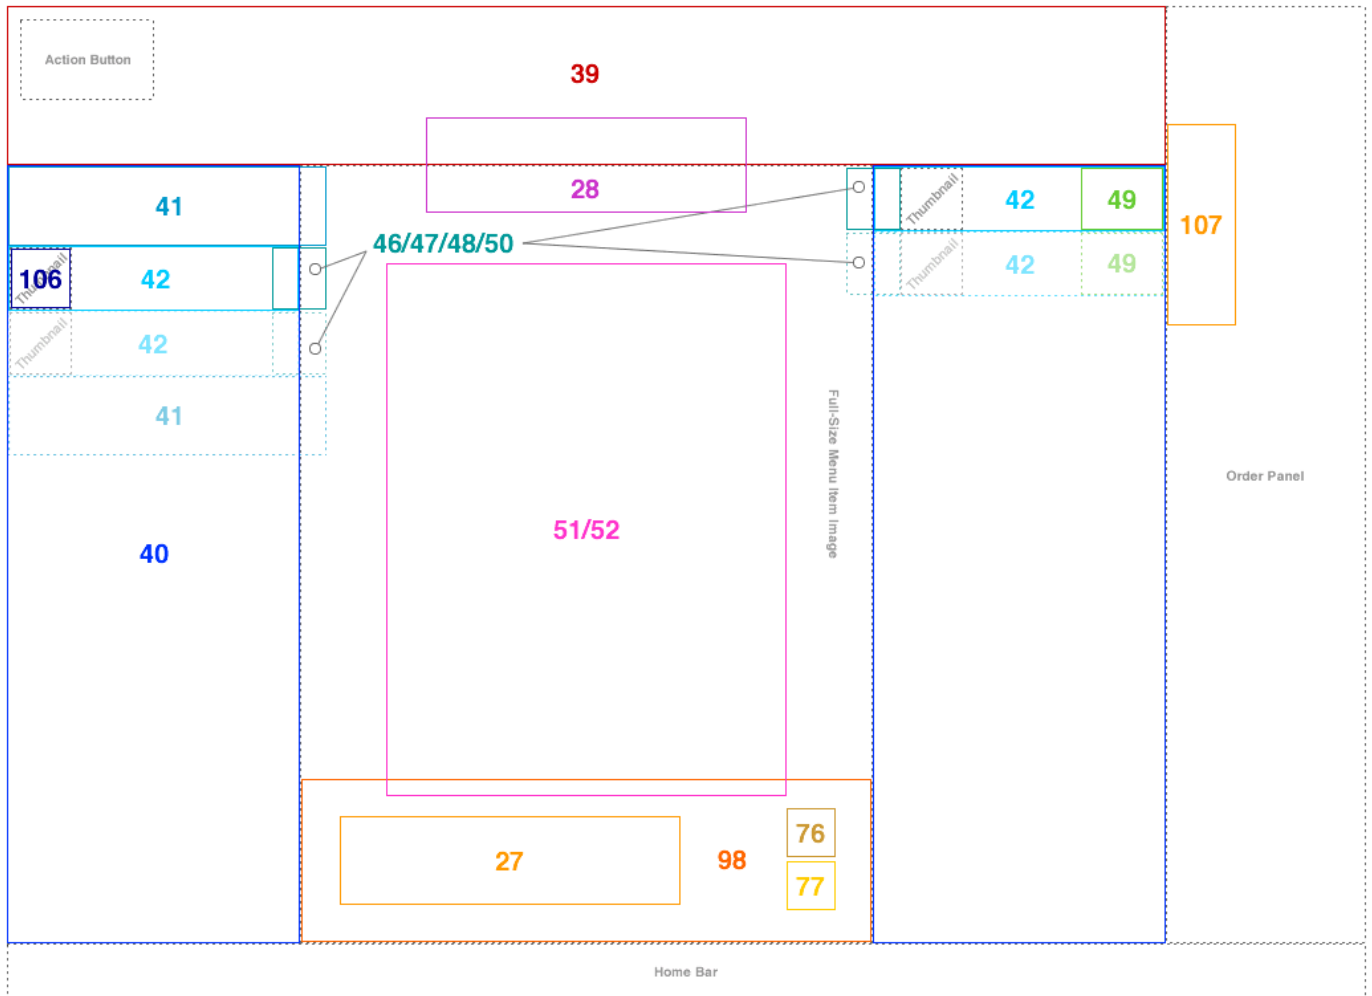

Menu Item Sold Out – Image

This image is placed over the image of the menu item when the menu item is sold out. The image appears in the top-left corner of the menu item image.

View Size:	130px × 130px
Min Recommended Size:	50px × 50px
Scaling:	None
Alignment:	Top Left
Enum Name:	kGOPSUIImageTypeSoldOut
Enum Value:	105

Customization Interface

'Add to Order' Button – Background Image

Image for the 'Add to Order' button located at the bottom of the Customization interface. This image is used for all states.

View Size: 257px × 65px
 Min Recommended Size: 21px × 21px
 Scaling: Stretched with 20px caps
 Enum Name: kGOPSUIImageTypeAddToOrderButton
 Enum Value: 27

Customization Interface

Walkthrough Button – Background Image

Image for the button located near the top of the Customization interface. This image is used for all states. It appears only when walkthroughs are enabled.

View Size:	240px × 70px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeWalkthroughButton
Enum Value:	28

Customization Header – Background Image

Fills the background of the header in the Customization Interface. The header overlaps the menu item's full-size image by 40px, so a 430px × 40px area in the bottom center of the image may be left transparent. The component list titles occupy the right-most and left-most 240px.

View Size:	874px × 120px
Min Recommended Size:	31px × 31px
Scaling:	Stretched with 30px caps
Enum Name:	kGOPSUIImageTypeCustomizationHeader
Enum Value:	39

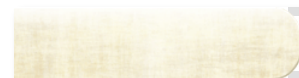

Component List – Background Image

Fills the background of both the available and selected component lists in the Customization Interface.

View Size:	220px × 588px
Min Recommended Size:	10px × 10px
Scaling:	None (Tiled)
Enum Name:	kGOPSUIImageTypeComponentList
Enum Value:	40

Component Category – Background Image

Fills the background of a component list header that contains the Component Category name. Touching the header expands and collapses the component list.

View Size:	240px × (Category Header Height Setting)
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeComponentList
Enum Value:	41

Customization Interface

Component – Background Image

Fills the background of a component cell that contains the Component name and thumbnail image.

View Size:	220px × 45px(+)
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeComponent
Enum Value:	42

Draggable Component – Background Image

Fills the background of the component view that is dragged by the guest.

View Size:	220px × 45px(+)
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeDraggableComponent
Enum Value:	43

Add Component Button – Icon

The guest touches this button to add a component to a menu item. The button is always displayed on the right side of the component.

View Size:	40px × 45px
Min Recommended Size:	30px × 30px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeComponentPlusButton
Enum Value:	46

Remove Component Button – Icon

The guest touches this button to remove a component from a menu item. The button is always displayed on the left side of the component.

View Size:	40px × 45px
Min Recommended Size:	30px × 30px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeComponentMinusButton
Enum Value:	47

Customization Interface

Replace Component Button – Icon

The guest touches this button to replace a component to a menu item. The button may be displayed on the right or left side of the component.

View Size:	40px × 45px
Min Recommended Size:	30px × 30px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeComponentReplaceButton
Enum Value:	48

Component Options Button – Icon

The guest touches this button to select serving options for a component. The button is always displayed on the right side of the component, and floats above the component name.

View Size:	60px × 45px
Min Recommended Size:	45px × 45px
Scaling:	None
Alignment:	Right
Enum Name:	kGOPSUIImageTypeComponentOptionsButton
Enum Value:	49

Serving Options Button – Icon

The guest touches this button to select serving options for a menu item. The button is always displayed on the left side of the component.

View Size:	40px × 45px
Min Recommended Size:	30px × 30px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeServingOptionsButton
Enum Value:	50

Customization Interface

Add Component Drop Area – Icon

When the guest drags a component to add it to the menu item, an image is displayed indicating where the component can be dropped. The image floats over the full-size menu item image in the center.

View Size:	300px × 400px
Min Recommended Size:	100px × 100px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeSelectDropArea
Enum Value:	51

Remove Component Drop Area – Icon

When the guest drags a selected component to remove it from the menu item, an image is displayed indicating where the component can be dropped. The image floats over the full-size menu item image in the center.

View Size:	300px × 400px
Min Recommended Size:	100px × 100px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeRemoveDropArea
Enum Value:	52

Selected Order Item Marker – Icon

When the guest selects an order item for customization, a marker image appears in the order view pointing from the order item thumbnail to the Customization Interface. The arrow in this image should be aligned with the vertical center of the image.

View Size:	50px × 130px
Min Recommended Size:	50px × 130px
Scaling:	None
Alignment:	Left
Enum Name:	kGOPSUIImageTypeSelectedOrderItemMarker
Enum Value:	107

Customization Interface

Increment Button – Icon

Button for incrementing a number, such as the quantity of an Order Item.

View Size:	35px × 35px
Min Recommended Size:	30px × 30px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeIncrementButton
Enum Value:	76

Decrement Button – Icon

Button for decrementing a number, such as the quantity of an Order Item.

View Size:	35px × 35px
Min Recommended Size:	30px × 30px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeDecrementButton
Enum Value:	77

Quantity Area – Background Image

Fills the background of the quantity selection area on the bottom of the Customization Interface.

View Size:	434px × 125px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeQuantity
Enum Value:	98

Customization Interface

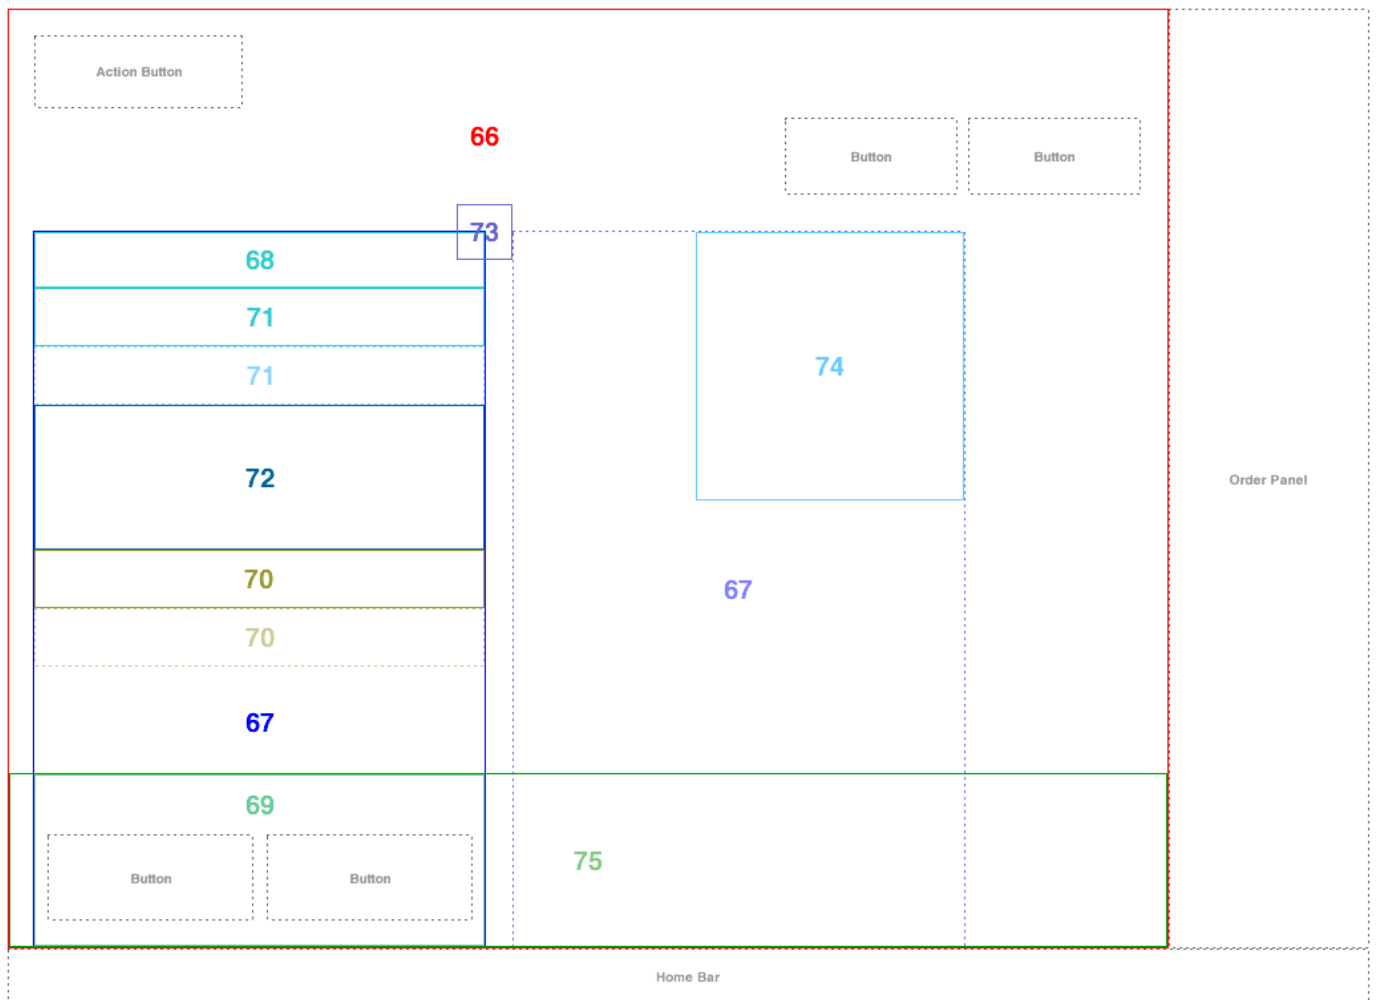

Component Sold Out – Image

This image is placed over the thumbnail image of the component when the component is sold out.

View Size:	45px × 45px
Min Recommended Size:	45px × 45px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeSoldOutThumbnail
Enum Value:	106

Checkout Interface

Draggable Check Item – Background Image

Fills the background of the check item view that is dragged by the guest.

View Size: 340px × 45px
 Min Recommended Size: 21px × 21px
 Scaling: Stretched with 20px caps
 Enum Name: kGOPSUIImageTypeDraggableOrderItem
 Enum Value: 44

Checkout Interface

Not Draggable Indicator – Icon

If dragged is attempted on an order item that cannot be moved, this image appears in place of the order item. The image is centered on the touch coordinates.

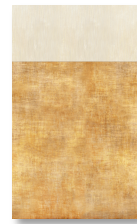

View Size:	100px × 100px
Min Recommended Size:	50px × 50px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeNotDraggable
Enum Value:	45

Checkout Interface – Background Image

Fills the background area of the Checkout Interface.

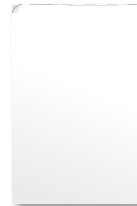

View Size:	1024px × 708px
Min Recommended Size:	10px × 10px
Scaling:	None (Tiled)
Enum Name:	kGOPSUIImageTypeCheckout
Enum Value:	66

Check – Background Image

Fills the background of a check in the Checkout Interface.

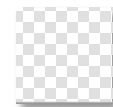

View Size:	360px × 560px
Min Recommended Size:	10px × 10px
Scaling:	None (Tiled)
Enum Name:	kGOPSUIImageTypeCheck
Enum Value:	67

Check Header – Background Image

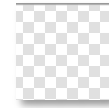

Fills the background of the check header in the Checkout Interface.

View Size:	340px × 42px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeCheckHeader
Enum Value:	68

Checkout Interface

Check Footer – Background Image

Fills the background of the check footer in the Checkout Interface.

View Size:	340px × 132px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeCheckFooter
Enum Value:	69

Payment – Background Image

Fills the background of a payment item on the check in the Checkout Interface.

View Size:	340px × 50px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeCheckPayment
Enum Value:	70

Check Item – Background Image

Fills the background of on Order Item on the check in the Checkout Interface.

View Size:	340px × 44px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeCheckItem
Enum Value:	71

Check Totals – Background Image

Fills the background of the check totals cell at the bottom of the check's Order Item List in the Checkout Interface.

View Size:	340px × 109px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeCheckTotals
Enum Value:	72

Checkout Interface

Delete Check – Button

Button is located on the top-right corner of the check and overlaps the check's edge by 20px. The button only appears if the check can be deleted.

View Size:	40px × 40px
Min Recommended Size:	30px × 30px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeCheckDelete
Enum Value:	73

Check Paid – Image

The image appears in the top-right corner of a check when it has been paid in full. The image floats above the other elements in the check view.

View Size:	200px × 200px
Min Recommended Size:	50px × 50px
Scaling:	None
Alignment:	Top Right
Enum Name:	kGOPSUIImageTypeCheckPaid
Enum Value:	74

Payment Completed Message – Background Image

Fills the background of a message that appears at the bottom of the Checkout interface once all checks have been paid. The message view covers the action buttons on all checks.

View Size:	874px × 132px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypePaymentCompletedMessage
Enum Value:	75

Default Button

Default Button in Normal State – Background Image

Fills the background of a default button. This image is used for the button's normal state.

View Size: (varies)
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeDefaultButton
Enum Value: 18

Default Button in Highlighted State – Background Image

Fills the background of a default button. This image is used for the button's highlighted state (i.e. when the button is touched).

View Size: (varies)
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeDefaultButtonHighlighted
Enum Value: 19

Default Button in Disabled State – Background Image

Fills the background of a default button. This image is used for the button's disabled state.

View Size: (varies)
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeDefaultButtonDisabled
Enum Value: 20

Action Button

Action Button in Normal State – Background Image

Fills the background of an action button. This image is used for the button's normal state.

View Size: (varies)
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeActionButton
Enum Value: 21

Action Button in Highlighted State – Background Image

Fills the background of an action button. This image is used for the button's highlighted state (i.e. when the button is touched).

View Size: (varies)
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeActionButtonHighlighted
Enum Value: 22

Action Button in Disabled State – Background Image

Fills the background of an action button. This image is used for the button's disabled state.

View Size: (varies)
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeActionButtonDisabled
Enum Value: 23

Menu Item Popup Button

Menu Item Popup Button in Normal State – Background Image

Fills the background of a button in a menu item popup. This image is used for the button's normal state.

View Size: (varies)
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeMenuItemPopupButton
Enum Value: 32

Menu Item Popup Button in Highlighted State – Background Image

Fills the background of a button in a menu item popup. This image is used for the button's highlighted state.

View Size: (varies)
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeMenuItemPopupButtonHighlighted
Enum Value: 33

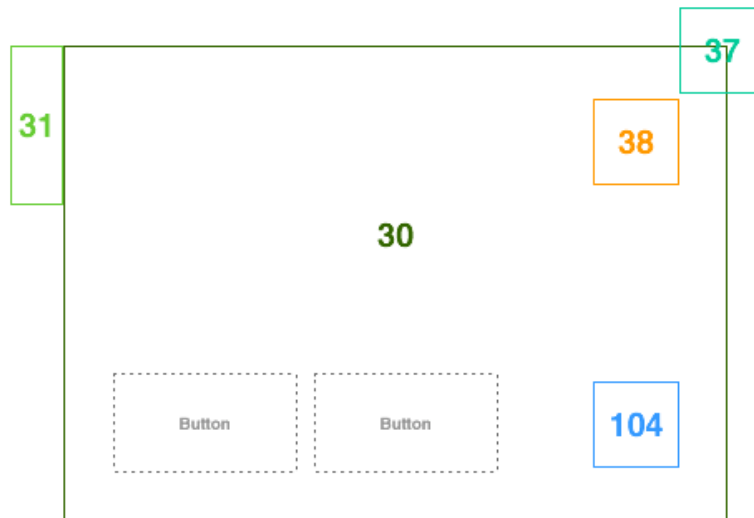

Menu Item Popup Button in Disabled State – Background Image

Fills the background of a button in a menu item popup. This image is used for the button's disabled state.

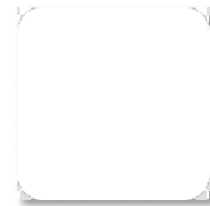

View Size: (varies)
Min Recommended Size: 21px × 21px
Scaling: Stretched with 20px caps
Enum Name: kGOPSUIImageTypeMenuItemPopupButtonDisabled
Enum Value: 34

Menu Item Popup

Menu Item Popup – Background Image

Fills the background of the popup that appears when a menu item is touched.

View Size:	(varies)
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeMenuItemPopup
Enum Value:	30

Menu Item Popup Arrow – Icon

This image is placed next to the Menu Item popup background image to indicate what item was touched. The image is flipped horizontally when needed. The arrow should be centered within the image's height (i.e. the arrow's tip must be the same distance from the top and bottom). If the popup background image has a corner radius, leave an appropriate amount of empty space at the top and bottom of the arrow image. The arrow is animated to appear to slide in and out from behind the popup background.

View Size:	30px × (image height)
Min Recommended Size:	30px × 30px
Scaling:	None
Enum Name:	kGOPSUIImageTypeMenuItemPopupArrow
Enum Value:	31

Menu Item Popup

Popup Close Button – Icon

Touching this icon closes a popup. The button is placed on the top left or right corners of the popup and overlaps the top and right/left edges by 25px. This image is used for all button states.

View Size:	50px × 50px
Min Recommended Size:	50px × 50px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeClosePopupButton
Enum Value:	37

Favorite Button – Icon

Touching this icon adds a menu item to the guest’s favorites. The button is located on a Menu Item popup. This image is used for all button states.

View Size:	50px × 50px
Min Recommended Size:	50px × 50px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeFavoriteButton
Enum Value:	38

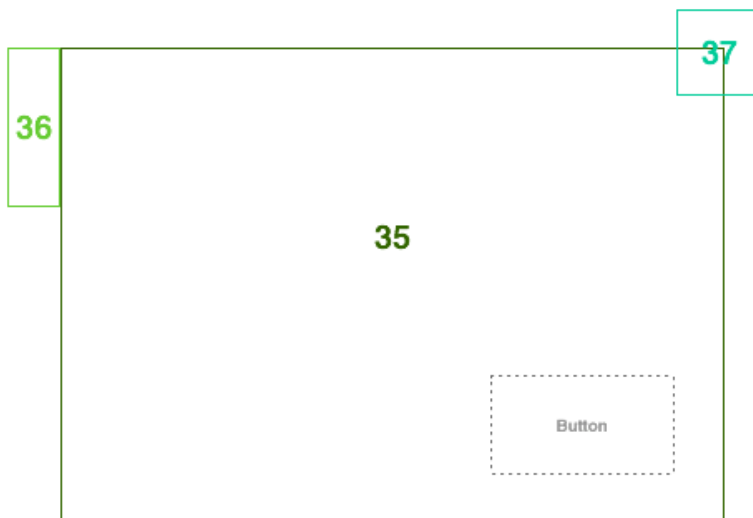

Zoom-In Button – Icon

This image appears as a button on the Menu Item popup. When clicked, a full-screen popup displays a large image of the menu item, along with its name, description, price, etc.

View Size:	50px × 50px
Min Recommended Size:	30px × 30px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeZoomInButton
Enum Value:	104

Customization Popup

Customization Popup – Background Image

Fills the background of the popup that appears when a serving option or component is touched.

View Size:	(varies)
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeServingOptionPopup
Enum Value:	35

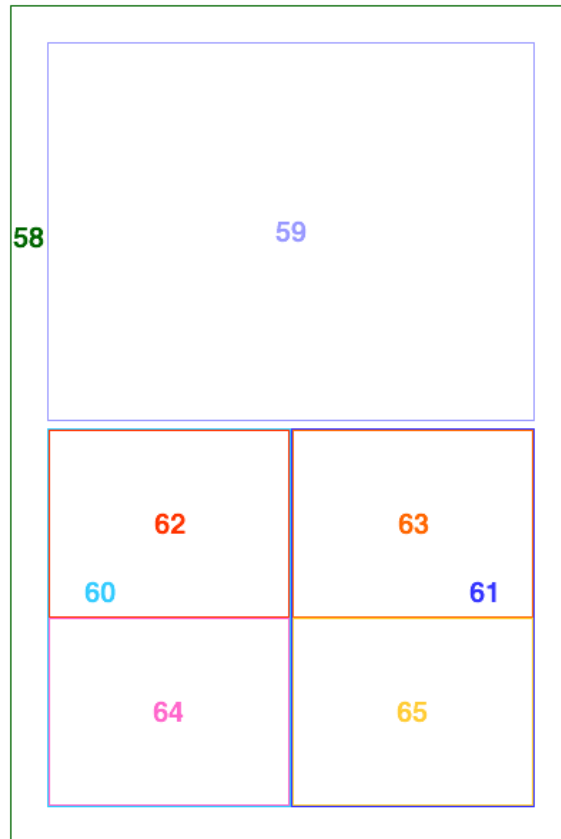

Customization Popup Arrow – Icon

This image is placed next to the popup background image to indicate what item was touched. The image is flipped horizontally when needed. The arrow should be centered within the image's height (i.e. the arrow's tip must be the same distance from the top and bottom). If the popup background image has a corner radius, leave an appropriate amount of empty space at the top and bottom of the arrow image. The arrow is animated to appear to slide in and out from behind the popup background.

View Size:	30px × (image height)
Min Recommended Size:	30px × 30px
Scaling:	None
Enum Name:	kGOPSUIImageTypeServingOptionPopupArrow
Enum Value:	36

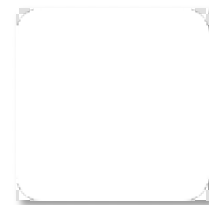

Side Selection Popup

Side Selection Popup – Background Image

Fills the background of the popup that appears when adding a component to a split menu item.

View Size:	394px × 588px
Min Recommended Size:	21px × 21px
Scaling:	Stretched with 20px caps
Enum Name:	kGOPSUIImageTypeSideSelectionPopup
Enum Value:	58

Side Selection Popup

All Sides (Side Selection) – Button

Indicates that the component will be added to all sides of a Menu Item. The button can be touched, or have a component dragged onto it.

View Size:	340px × 264px
Min Recommended Size:	340px × 264px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeSideAll
Enum Value:	59

Left Side (Side Selection) – Button

Indicates that the component will be added to the left side of a Menu Item. The button can be touched, or have a component dragged onto it. The image is placed adjacent to the button for selecting the right side.

View Size:	170px × 264px
Min Recommended Size:	170px × 264px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeSideLeft
Enum Value:	60

Right Side (Side Selection) – Button

Indicates that the component will be added to the right side of a Menu Item. The button can be touched, or have a component dragged onto it. The image is placed adjacent to the button for selecting the left side.

View Size:	170px × 264px
Min Recommended Size:	170px × 264px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeSideRight
Enum Value:	61

Side Selection Popup

Top Left Side (Side Selection) – Button

Indicates that the component will be added to the top left side of a Menu Item. The button can be touched, or have a component dragged onto it. The image is placed adjacent to the buttons for selecting the bottom left side and the top right side.

View Size:	170px × 132px
Min Recommended Size:	170px × 132px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeSideTopLeft
Enum Value:	62

Top Right Side (Side Selection) – Button

Indicates that the component will be added to the top right side of a Menu Item. The button can be touched, or have a component dragged onto it. The image is placed adjacent to the buttons for selecting the bottom right side and the top left side.

View Size:	170px × 132px
Min Recommended Size:	170px × 132px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeSideTopRight
Enum Value:	63

Bottom Left Side (Side Selection) – Button

Indicates that the component will be added to the bottom left side of a Menu Item. The button can be touched, or have a component dragged onto it. The image is placed adjacent to the buttons for selecting the top left side and the bottom right side.

View Size:	170px × 132px
Min Recommended Size:	170px × 132px
Scaling:	None
Alignment:	Center
Enum Name:	kGOPSUIImageTypeSideBottomLeft
Enum Value:	64

Side Selection Popup

Bottom Right Side (Side Selection) – Button

Indicates that the component will be added to the bottom right side of a Menu Item. The button can be touched, or have a component dragged onto it. The image is placed adjacent to the buttons for selecting the top right side and the bottom left side.

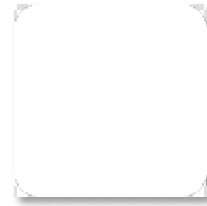

View Size:	170px × 132px
Min Recommended Size:	170px × 132px
Scaling:	None
Alignment:	Center
Enum Name:	kGPSUIImageTypeSideBottomRight
Enum Value:	65
