Enhancements for Paying Separate Checks for Drive Thru and Counter Orders

The image displays a POS system interface for processing a payment. The top section is titled "Take Payment" and shows a transaction summary with a total of 6.36. A calculator is visible for entering amounts. The transaction details include a check number of 0001-1, table number 998, and a customer name of CHRISSEY C. The subtotal is 5.89, tax is 0.47, and the total is 6.36. Payment options include CASH, VISA, MASTERCARD, and AMEX. A "SPLIT" button is also present. The bottom section is titled "Payment - Select Checks" and shows two check selection options, each with a green arrow pointing to a red square. The check selection options are:

Table #	Check #	CASHIER	Time
998	3	0001	0:14
998	2	0001	0:14

Buttons for "TAKE PAYMENT", "NO SALE", "GIFT CARD INQUIRE", and "REPRINT" are located on the right side of the bottom section.

Seq 9 Sorts with Parent

- In version 6.41 building modifiers is easier than in the past where we would have to build multiple modifiers of the same name and put them in different sequences. There is an option routing choice “with previous item” to be used for sorting modifiers. You will need to flag “sort options by prep sequence”, and “seq 9 sorts with parent”. You do have to go into prep sequence names and create a sequence 9. In this case this seq 9 is named “OPTIONS”.

KVDU Course Breaks

Improvement to Prep Breaks on KVDU's. In previous versions when using the flag below "show course name at prep breaks", we could still only show the name of a prep sequence on a prep slip, not on a kvdu..

Menu Screens: Prep Printout Option 1

Prep header adjust (by 3 lines) range -1 to +3:

Prep printout format: ▾

<input type="checkbox"/> Use prep delimiter?	Prep delimiter: <input type="text"/>
<input type="checkbox"/> Prep Header Double High?	Prep trailer length (0-default): <input type="text" value="0"/>
<input checked="" type="checkbox"/> No header at course break?	Prep minimum length (0-default): <input type="text" value="0"/>
<input type="checkbox"/> Print check total on prep?	Page break after lines (0-99): <input type="text" value="0"/>
<input type="checkbox"/> not on UDU? <input type="checkbox"/> not on show orders?	<input checked="" type="checkbox"/> Use option routing?
<input type="checkbox"/> Prep slip total?	<input type="checkbox"/> Print date on prep?
<input checked="" type="checkbox"/> Show course name at prep breaks?	<input type="checkbox"/> Cut at prep sequence break?
<input type="checkbox"/> Repeat server/table at prep bottom?	<input type="checkbox"/> Consolidate like items?
<input type="checkbox"/> Beep after prep (printer dependent)?	<input type="checkbox"/> ...by main item only?
<input type="checkbox"/> Extra blank lines between main items?	<input type="checkbox"/> ...by inventory number?
<input checked="" type="checkbox"/> Allow prep sequence on view edit?	Sort Prep Printouts
<input type="checkbox"/> Print inventory description on prep?	<input type="checkbox"/> By Sep-Chk
<input type="checkbox"/> Modifiers print in main item color?	<input checked="" type="checkbox"/> By Prep Sequence
<input type="checkbox"/> Print check number barcode?	<input type="checkbox"/> By Prep Category
<input type="checkbox"/> Barcode bumps UDU orders?	<input type="checkbox"/> By Item Name
<input type="checkbox"/> Send to dupe printers on 2nd pass?	<input type="checkbox"/> As Ordered?
<input type="checkbox"/> ...consolidate on second pass?	Set Prep time from
<input type="checkbox"/> ...sort on second pass?	<input type="radio"/> Not used
<input type="checkbox"/> ...sort by Sep-Chk on second pass?	<input type="radio"/> Quantity and print Prep Time
<input type="checkbox"/> ...only if printer routed to?	<input checked="" type="radio"/> Menu item field
<input type="checkbox"/> Mods as Main Items sort with Main Item?	

Save Exit

Menu Screens: Prep Printout Option 2

Eliminate from Prep Slip

<input type="checkbox"/> Table Number?	<input type="checkbox"/> Only for Misc Table/Start Tab?		
<input type="checkbox"/> Server?	<input checked="" type="checkbox"/> Number in Party?	<input type="checkbox"/> Check Number?	<input type="checkbox"/> Time?
<input type="checkbox"/> Menu Name?	<input type="checkbox"/> Printer Name?	<input checked="" type="checkbox"/> Terminal Name?	

<input type="checkbox"/> Auto send prep seq groups w/delay?	<input checked="" type="checkbox"/> Show course breaks on vdu?
<input type="checkbox"/> Auto send prep seq groups w/udu bump?	<input type="checkbox"/> Show prices on prep slips?
<input type="checkbox"/> of All UDU's?	<input checked="" type="checkbox"/> Sort options by prep sequence?
<input type="checkbox"/> Use SELECT button for 'send all'?	<input type="checkbox"/> by prep category?
<input type="checkbox"/> Repeat check number at prep bottom?	<input checked="" type="checkbox"/> seq 9 sorts with parent?
<input type="checkbox"/> Conditional routing checks options?	<input type="checkbox"/> Use conditional routing?
<input type="checkbox"/> No seats on By Item UDU's?	<input type="checkbox"/> Expedite box prints in red?
<input type="checkbox"/> Repeat server/table at UDU bottom?	
<input type="checkbox"/> at vdu top?	
<input type="checkbox"/> Print Time Double High at prep bottom?	
<input type="checkbox"/> in Red?	
<input type="checkbox"/> Highlight menus starting w/ * at top of prep?	

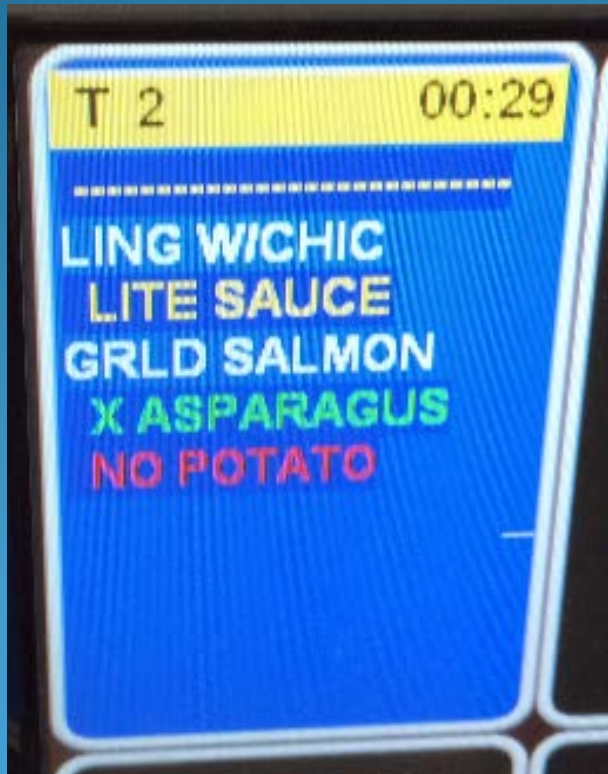

Prep seq group options stay with preceding Main Items

Prep trailer line 1:

Prep trailer line 2:

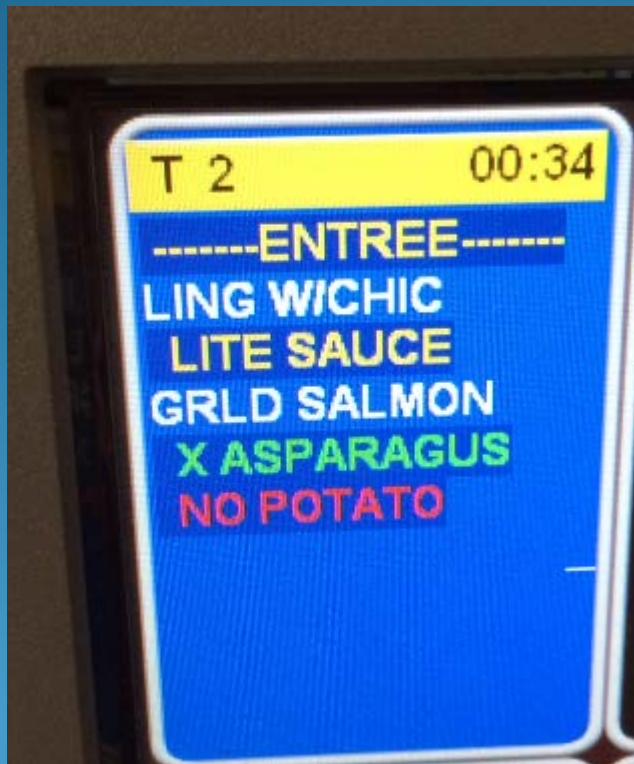

KVDU Course Breaks

This is what you will see without the “show course names at prep break” and this is how it would show previous to version 6.41 regardless of the flag setting

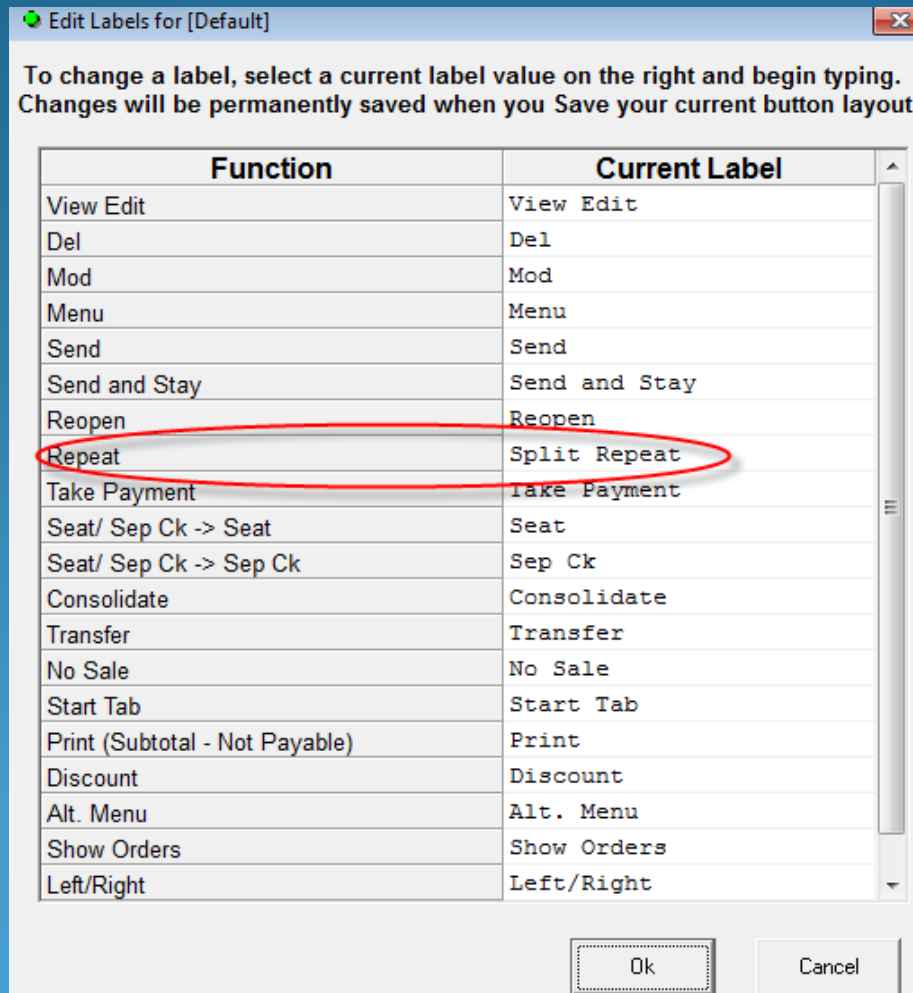

KVDU Course Breaks

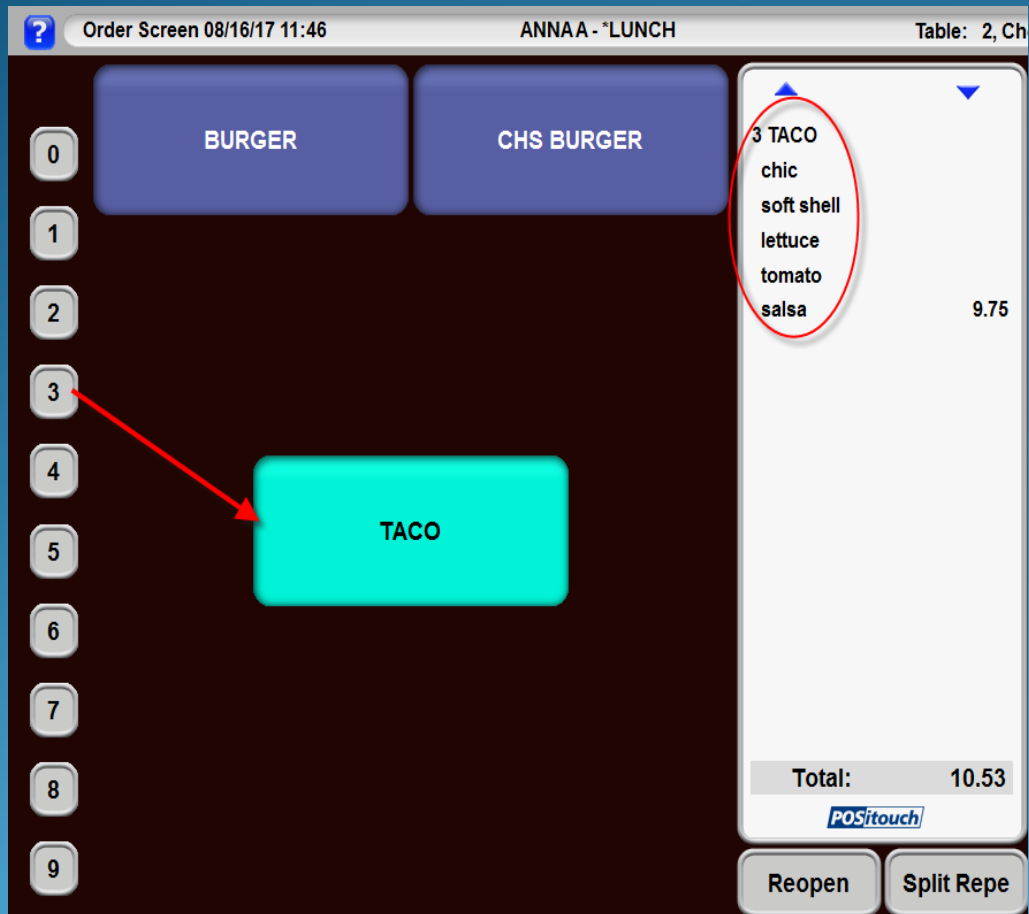

Now you will see the actual prep sequence course name

Split Repeat Function

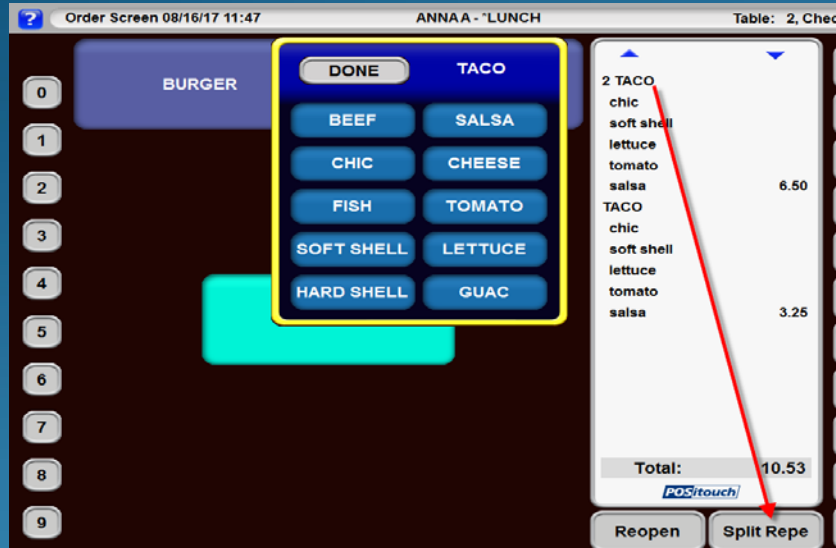

Split Repeat Function

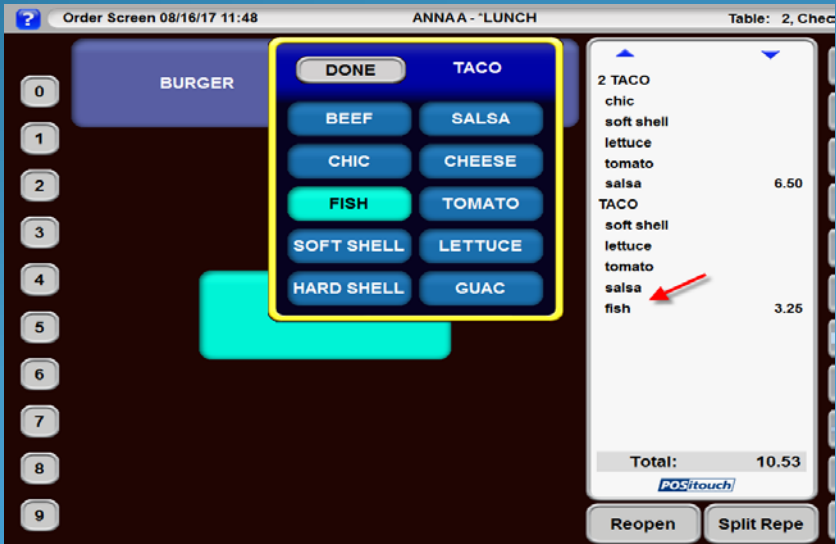

Here you see that 3 Tacos were ordered with Chic, Soft Shell, lettuce, tomato and Salsa

Split Repeat Function

We need to modify just one of those Tacos so we touch the Main item "3 Taco" then touch Split Repeat which will split off only 1 of those orders, so now you see 2 Taco with all it's mods, and can now modify the third Taco

The User Interface for DELIVERY.EXE Has Been Updated and Improved.

The screenshot shows a software window titled "Delivery Terminal #". It contains several tabs: "About" and "Accounts". The "Accounts" tab is active, showing "Delivery Info" and "Customer Information" sections. The "Delivery Info" section includes "Account Information" with fields for "Account #:" (7778899), "Zone:", "Order Dates:" (First and Last), and "Address:" (123 East River Road). The "Customer Information" section has two sub-tabs: "Customer Information" and "Miscellaneous". The "Customer Information" sub-tab is active, showing fields for "Last / First / MI:" (Harris James T), "Address 1:" (123 East River Road), "Address 2:" (Apartment 1B), "City:" (WARWICK), "State / ZIP:" (RI 02886), "Phone:" ((401)-777-8899 ext. 0), and "Phone 2:" ((401)-777-8899 ext. 0). There are also "Loyalty" fields for "Points Current:" (0) and "Points Accum'd:" (0), and dropdown menus for "Membership Type:" and "Status Code:". A "For Street-to-Zone Conversion" section has a "# / Street / Apt:" field. Below this are four "Note" fields: Note 1 (Deliver to side door), Note 2 (Beware of dog), Note 3, and Note 4 (7778899). At the bottom, there is a keyboard icon and three buttons: "Account Maintenance", "Cancel", and "Save".

New Features and Implemented Fixes

- Fix - changing quantity on coupons and comps. Blocks changing quantity on a rung up coupon or comp
- Fix - repeat of manager items. Blocks repeat of manager items.
- Fix to treat all spcwin.ini entries (Yes/No) as non-case sensitives.
